AS FEBRUARY ENDS
 MAY YOUR REFLECTION BE ONE OF HAPPINESS, JOYFULNESS AND LOTS OF LOVE! WELCOME MARCH!

'Tis that time of year again..... Please be mindful when out and about. If you are sick or not feeling well, please use common sense in precaution to prevent sharing with everyone else. A simple sickness for some, isn't always that way for others. Sneeze and/or cough into the crook of your arm, that's simple enough for us all to do! And please, for all that is holy, be KIND if someone has a mask on - you do not know the scope of their reasoning. It really just takes simple acts of kindness for us to each live in this world together.....differences of opinions and/or beliefs make life much more interesting so don't get ugly when someone feels different than you!

What's Up

PLEASE NOTE:

Events may be altered/canceled after the publication has gone to print. Your Round-Up makes every effort to provide accurate/precise information! **ALSO**, information is gathered from various sources, including public forums and is intended to give the community awareness and opportunity to participate...not to harass, demean or interfere in events that differ from their preference. Always respect others in their gatherings.

Your Round-Up is open ALL Holidays except for Thanksgiving, Christmas and New Year's and always closed 2 weeks at the end of every year.

I'd LOVE to be out galavanting in a hippy van (but I'll settle for my amazingly cool Jeep).... but I choose to keep a consistent and easy to remember schedule for YOU (see box to left).

Deadline is EVERY Friday, 2 pm - NO EXCEPTIONS.

If something comes up and I need to be closed, I always try to give adequate notice....sometimes emergencies, last-minute fishing trips with the hubs (not often) and/or the monthly adventure trips we take do happen quickly.

Dropbox, email, voicemail & website are ALWAYS available!
Thank you - Capri

There are THREE Round-Up publications.

My five children and I were playing hide-and-seek one evening. With the lights turned off in the house, the kids scattered to hide, and I was "it." After a few minutes I located all of them.

Then it was my turn to hide, they searched high and low but could not find me.

Finally my oldest got a bright idea. He went to the computer and sent me a FaceBook message. They found me immediately because my phone started buzzing!!

**Know when to stop worrying
 and move on to something else!**

Nine years ago marks a historical happening! The day my husband and I walked into our local Costco and brought home a new addition to our family!

We went in to stock up on some basic household supplies. Laundry detergent, sliced cheese and peanut butter. We were so young. So naive.

I don't now whose idea it was - perhaps it was mine. It must have been a question so casually asked, "Do we need any plastic wrap?"

And we did, we really did. So we decided to toss a roll into our cart. A 750-foot roll, to be precise.

Within months, the detergent had disappeared, and the cheese and peanut butter too. But that roll of plastic wrap? We'd barely scratched the surface -we'd used 3 feet at best.

The years passed. We moved from one town to another and brought the wrap with us. A few more years passed, and we

moved again, to another state this time. We packed up our things and made the 800 mile trek to South Carolina - Bill, Janet, Ginger (the dog) and the plastic wrap.

We had become so attached, so fond of our plastic wrap, that it was hard to imagine a time when it was not a part of our family.

A few months ago, I noticed that the roll was finally getting smaller, I rushed over to Bill to let him know, so we had a little time to prepare ourselves for the inevitable.

Recently, while I was home alone, I finally came to the end of the roll. I waited for Bill to return so the two of us could say goodbye to our old

friend together.

With Bill's steady hand on my shoulder, I used the last of the wrap to cover a batch of oatmeal cookie dough. It was done. I wiped away a tear, and Bill got his keys. It was time to go to Costco again.

A German shepherd, a Doberman and a cat die and go to heaven. They are greeted by God, who asks each of them what they believe in.

The German Shepherd goes first - "Discipline, training and loyalty to my master," he says.

"Good," says God. "You may sit on my right. Now, Doberman, what do you believe in?"

The Doberman answers, "Love, care and protecting my master."

"Excellent," says God. You may sit on my left.

Now, cat, it's your turn. What do you believe in?"

The cat replies, "I believe you're sitting in my seat."

Lawrence "Dan" Gibson September 12, 1952 - February 7, 2026

Lawrence "Dan" Gibson, 73, of Prineville, OR, passed away on February 7, 2026. Born on September 12, 1952, he devoted his life to public service, first as a police officer and later through three decades with the Oregon Department of Transportation, retiring in 2003.

In retirement, Dan embraced ranch work, where his strength and grit as a cowboy were unmistakable. He was known for his quick wit, humor and rich storytelling. Above all, Dan loved his family fiercely. He treasured calls with his daughters and enjoyed hunting, fishing, camping, NASCAR and cheering for the Seattle Seahawks.

Dan married Susan Hopkins Gibson in 2012. He is survived by his wife, Sue; daughters, Dawn McKim and Angela LaMarr; grandchildren, AJ and Taylor. He was preceded in death by his spouse, Deann, his parents and two sisters.

A celebration of life will be held this summer.

Chance Charles Johann Johnson March 6, 1987 - February 5, 2026

Chance was born in Bend, OR, March 6, 1987, 8:38 am to Carla Esther Johnson and Jerrald "Jerry" Roy Misfeldt. Chance left this life, on Feb 5, 2026, 2:20 am, due to complications from an automobile accident in 2021 that paralyzed him.

Chance was preceded in death by his most beloved pet Saki Dawg, whom spent the majority of Chance's life as his very best friend! He was preceded in death by his bio-father Jerrald "Jerry" Roy Misfeldt; paternal grandparents William "Bill" Charles Misfeldt, and Virginia Lee Misfeldt {Andrews}; maternal grandparents Charles Odis Willard Johnson and BettyJo Ann Johnson {Hellman}.

Chance is survived by his parents, Carla Esther Johnson and Bradley Melvin Gibson; eldest sister Chenté Dawn Johnson and her 5 children, Zayden, Vanjur, Irdesa, Sevage, and Lumani; younger sister Cheynell Ann Rivera-Johnson and her 2 children, Lela and Ryatt; younger brother Bradley Lynn Johnson-Gibson and his 2 children, Mekhi and Kashus; brother Timothy "Timmy" Lee Smith and his 2 children, Hunter and MiLena; brother Robert Timothy Lester and his daughter Paisley. In addition to the 100's of survivors of other family members and close friends.

Chance was raised in the small town of Prineville, moving away for brief periods and always returning. He received his diploma when he graduated from Crook County High School in 2005. Chance was a drywaller, a trade which was handed down by his dad, Brad.

In his 14,216 days, 5 hours, and 42 minutes, with us, Chance battled quite a few personal demons. Even with those problems, Chance never allowed things to stop his ear-to-ear, eye squinting smile that everyone knows. He has ALWAYS had a kind soul and huge heart. He would help anyone he possibly could. The actual "Best Friend" to so many of us! He loved harder than most people will ever know or experience. He was the "Good" that this world needs. He enjoyed making people laugh, but also making them think. He was crafty beyond explanation, had a one-of-a-kind unapologetic style, and he lived every day, (well most days), making sure that his loved ones knew that they were just that, "LOVED"! Chance Charles Johann Johnson will be remembered by so so many! He was a son, brother, uncle, cousin, nephew, friend, dog father, and like no other, an anomaly!

Celebration of Life will be held on his 39th Birthday, March 6, 11:30 am at Les Schwab Fields/Crooked River Park on S. Main St, in the covered area in Prineville. Potluck after the service (same location), so bring a dish of your choice. Also bring a chair as seating is limited. This service is open to any and all that knew Chance. If you have issues with anyone, NO YOU DON'T! Join us by making this his biggest birthday party he ever had!! Chance would dig it!

Me vs. Kitchen Appliances

I recently read an article about how appliance manufacturers plan to drive consumers insane. I mean, they don't come out and SAY they want to drive us insane - what they say is they want us to live in homes where "all appliances are on the Internet, sharing information and are smarter than most their owners." It goes on to say, "Dishwashers will be able to be turned on from the office, the fridge will know when the milk is out and a bathroom scale will transmit your weight to the gym."

WHAT!?!? Are these people for real? I mean why would a consumer load the dishwasher, go to work and then decided to start the dishwasher while at work? Is there a career benefit? Bonus paycheck??

Boss: "What are you doing?"

Me: (typing on the computer) "I'm starting my dishwasher!"

Boss: "Now THAT is the kind of productivity we need around here!"

Me: "Now I'm flushing the upstairs toilet!"

Come on now.....manufacturer's, we do not need a dishwasher that we communicate with from afar. If you want to improve them, give us one that senses when people leave dirty dishes on the kitchen counter and will shout "Put those dishes in the dishwasher right now or I'll leak all over your shoes!"

Likewise, we don't need a fridge that knows when

it's out of milk. I have a foolproof system that works - I simply ask my wife! What we could use, though, is a fridge that refuses to let us open its door when it senses that we are about to consume our fourth pudding snack in two hours!

As for the scale that transmits our weight to the gym! Are you nuts?!? We don't want our weight transmitted to our own eyeballs....I don't need any more criticism, but thank you anyway!!!

What really concerns me about these new "smart" appliances is: even if we like the features, we won't be able to use them. WE can't use the appliance features we already have.

I have a feature-packed phone with 43 buttons, at least 20 of which I am petrified to even look at. This phone can likely communicate with the dead, but I don't know how to operate it. Just like I can't operate my TV, which has features out the wazooty and requires THREE remote controls. One control has 44 buttons and came with the TV; the second has 39 buttons and came with the VCR, the third has 37 buttons and was brought by the cable guy. When I want to watch TV I'm confronted by 120 buttons that are so easily identified with labels such as PIP, MTS, DBS and JUMP. There are three power buttons - which do I push? My kids aren't afraid, they push buttons and they leave the blasted thing so messed

up that I cannot even figure out how to get the thing turned on after they have used it. I stand there staring blankly at the three remotes and 120 buttons, randomly pressing buttons until I give up and go turn on the dishwasher, in person, I might add!

But, the answer out there is MORE features?!? Do we really want appliances that are smarter than us? Can you imagine opening a "smart" fridge for a beer and hearing a cheerful recorded voice say, "It is time to toss the celery, it has become limp and slimy." Really, I don't care....I want a beer not celery. Ok, fine, I'll simply turn that "feature" off and carry on. But, that owners manual is 9" thick, full of acronyms and directions that baffle me. Bleh.....this sucks!

I want DUMB appliances, to match my abilities. At least I've got pets, friends and government representatives that remain on my level of smartness!

New St. Charles Program Pays Enrollees to Earn Medical Assistant Certification

St. Charles Health System is offering a new incentive to encourage individuals to become certified medical assistants (MA) to help fill a growing need within the health system. Individuals who are accepted into the program will receive funding to cover the cost of the MA certification program at Central Oregon Community College and a stipend to help cover living expenses while in the program. St. Charles is slated to hire up to 70 medical assistance in the next year, making this the most in-demand position within the

health system.

St. Charles' new program at COCC will provide funding for 10 students in an accelerated 6-month MA program starting in June and an additional 20 students in the regular 9-month tract starting in September. After graduation, individuals who received the funding commit to working for St. Charles for a 2-year minimum.

To apply, fill out the interest list for MA funding: <https://bit.ly/MAProgramInquiry>

My diminutive aunt Flora, just four feet, nine inches tall, accepted an offer to visit a health club for a free session. After being greeted heartily, she was shown where she could change and told an instructor would soon be with her.

Having changed her clothes, Aunt Flora went back to the exercise area. Along one wall she noticed a silver bar that was not in use, and decided to try her hand at chin-ups while she waited. She jumped up, barely reaching the bar, and managed to strain through two chin-ups before the instructor came to her side.

Smiling politely, the instructor said, "If you want to let go of the coat rack and follow me, I'll be glad to help you get started."

March 11 - Nature Night: The Water Remembers

Livestream, 7-8:30 pm. Join the Deschutes Land Trust and Amy Bowers Cordalis (Yurok)—attorney, author of *The Water Remembers*, and Executive Director/Co-Founder of Ridges to Riffles Indigenous Conservation Group—for a talk on the largest dam removal and river restoration project in world history. Amy will share the story of the Klamath River, from its creation teachings and Indigenous stewardship to the devastation caused by colonization, hydropower dams, and the 2002 fish kill. She'll reveal how generations of Klamath Basin Indigenous Peoples combined ceremony, legal advocacy, grassroots action, and strategic partnerships to win a historic \$515 million settlement, leading to the removal of

four dams and the return of more than 400 miles of salmon habitat. Amy will explore how Indigenous rights, cultural values, and ecosystem restoration can reshape policy, strengthen democracy, and deliver real climate solutions. Her message is one of resilience and hope: the water remembers, the fish remember, and together, we can renew the world.
